## Electronic Visitor Management

### *Visitor Management for Business*

CloudSecure Visitor Management is a compliant turnkey solution that manages the process from the moment you enter the parking entrance to the reception check-in & check-out. This smart electronic solution ensures your health & safety together with heightened building security is in place.

#### Integrations

Using webhooks or Zapier integrations we are able to integrate into other systems.

#### CloudSecure

All data transmissions are encrypted and secure in a POPI compliant tier 1 Data hosting facilities. Your data security is off highest priority.

#### Customize

We customize your workflows according to your requirements. Visitors can sign disclaimers read the health & safety procedures or watch a video.

## Bar-Code Scanner Technology

Chainway C71 is an industrial-grade rugged mobile computer with high extensibility. Built with Android 8.1 OS and Octa-Core processor, it supports abundant optional functions, including barcode scanning and camera snapshots.

The excellent performance makes C71 ideally deployed in logistics, retail, warehousing, healthcare & government projects to help users quickly achieve information management and improve operational efficiency.

### Identity Verification

Manage who is entering the premises with positive identification by scanning their driver's license, passports or SA ID cards. Manage your pedestrians & contractors with a built-in expiry alert.

### Vehicle Verification

Manage vehicle processing with a built-in real-time check to a list of stolen vehicles and expired details

### Photo evidence

Photo log vehicles, drivers or conduct boot inspections & delivery confirmations.

### Pre-registered Invitations

Ability to scan pre-authorized QR codes issued on invitations

*Link the scanner to the national database of stolen vehicles for real-time alerting*

Contractor  
Management

Google Map link to your  
premises

VOIP Calling

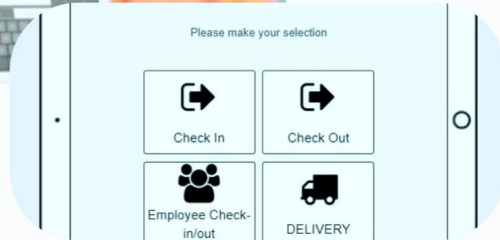

Boom/Gate trigger to  
open automatically

Entry & Exit Matching

Expired Licenses

# CloudReception

Provide a new level of efficiency and security for your front desk, creating a modern check-in experience & enhance your health & safety.

Create a seamless visitor process with instant employee email & SMS notifications when your visitor arrives.

## Check-in

Customized your check-in process for different types of visitors . i.e. Meetings, contractors, laptop check-in , training courses, events & interviews.
